

Kick-off Meeting

March 23rd, 2018

Région Île-de-France - 57, rue de Babylone - Paris 7^{ème}

International
Association for
Responsible
Research and
Innovation in
Genome Editing

On March 23rd we will launch the international “Association for Responsible Research and Innovation in Genome Editing” (ARRIGE) to promote a global governance of genome editing. We aim at providing a comprehensive setting for all stakeholders (academics, private companies, patient organizations, citizens, decision makers) to allow the development of these paramount technologies in a safe and socially-acceptable environment. This meeting is the continuation of several workshops held with African, Latino-American and Indian colleagues, to find common means to address the ethical and societal issues raised by the rapid introduction of gene editing technologies.

Global Meetings & Events

9:30-10:00	Registration of participants	
10:00-10h30	Welcome Addresses	<p>Hervé Chneiweiss (president, Inserm ethics committee)</p> <p>Faten Hidri (Vice-president High Education & Research, Région Ile-de-France)</p> <p>Lluís Montoliu (CNB-CSIC and CIBERER-ISCIII)</p>
<p>Introductory Lectures</p> <p><i>Chair:</i> Jennifer Merchant (Inserm ethics committee & Univ. Panthéon-Assas, Paris)</p> <p><i>Room:</i> Simone Veil</p>		
10:30-11:00 ¹	Setting the stage, where do we stand today with CRISPR technology	<p>Francisco J.M. Mojica Univ. de Alicante (Madrid)</p> <p>introduced by Lluís Montoliu (CNB-CSIC and CIBERER-ISCIII)</p>
11:00- 11:30	Coffee break	
11:30- 12:00 ¹	Review of Ethics positions, reports, documents published on gene editing by other groups and institutions	<p>Ewa Bartnik (Univ. of Warsaw, former rapporteur UNESCO ICB)</p>
12:00- 12:15	Taking seriously the anthropological and societal impact of genome editing technologies	<p>Mylène Botbol-Baum (Inserm ethics committee & Catholic Univ. of Louvain, Brussels)</p>
12:15-12:45 ¹	Ethics of the genome editing technologies: Presentation of ARRIGE	<p>Hervé Chneiweiss (Inserm ethics committee)</p>
12:45-14:00	► Lunch break	

¹ 20mns presentation + 10mns discussion

Addressing issues raised by GE technology through the creation of ARRIGE

Chairs: Marion Abecassis (Inserm ethics committee), Paul-Loup Weil-Dubuc (Espace éthique Régional Ile-de-France, Paris Saclay Univ.)

Room: Simone Veil

14:00– 14:25 ²	Human issues	Peter Mills (Nuffield Council on Bioethics -UK)
14:25– 14:50 ²	Environmental issues	Andreas Kurtz (Charity Hospital Berlin, European Group on Ethics)
14:50– 15:15 ²	Animal issues	Filipa Ferraz-De-Oliveira Ethics Sector (European Research Council, Brussels)
15:15– 15:40 ²	Intellectual properties & economic issues	Béatrice Holtz (LAVOIX, Paris)
15:40– 16:05	Involving patients in the discussion	Lauren Roberts and Louise James (Genetic Alliance UK)
16:05– 16:30 ²	Workshop conclusion: next steps	Lluís Montoliu (CNB-CSIC and CIBERER-ISCI11)
16:30– 17:00	Final comments	Yves Lévy (CEO, Inserm) Magnus Magnusson (Director, outreach and communication, SHSS, UNESCO)

² 15mns presentation + 10mns discussion
